

## Spanish 1 Grades 7–12

Understanding grammar as the foundation of language is a key to language fluency. This course gives an excellent Spanish foundation with the optimal balance of grammar, vocabulary, reading, listening, and speaking. *Spanish 1* is designed to enable the student to speak, understand, read, and write the basic Spanish he would need to know in most everyday situations.

*Oral Fluency Exercises* provides students many opportunities to improve their communication skills by applying the grammar and vocabulary they are learning. Through conversations, readings, and songs, students will grow their confidence as they improve their pronunciation, inflection, phrasing, and expression.

### Application

- A variety of exercises to master the language: grammar, conversations, readings, songs, presentations

## Spanish 2 Grades 7–12

The Spanish 2 program is designed to improve the students' ability to speak, understand, read, and write basic Spanish in most everyday situations, with a strong emphasis on witnessing for Christ. A Bible memory verse for each week, practice lessons from the life of Christ, and a strong missionary emphasis make this course unique. The other applications of these skills include writing Bible stories, performing create-a-scenes and situation act-outs, storytelling, taking part in discussion and debate, anecdote and questions, and giving their testimony.

The text *Más que vencedores* briefly reviews basic Spanish 1 grammar and then introduces new grammar. The goal of Spanish 2 is to enable the student to speak the language with a real working knowledge of it. Cultural readings of Spain and Latin America are featured.

The *Vocabulary Manual* briefly reviews the basic words and expressions learned in Spanish 1, and then introduces new expressions and words. The Spanish 2 student will find the vocabulary manual a helpful tool in writing compositions.

### Application

- Vocabulary exercises to master each vocabulary lesson:

## MATHEMATICS: *Business Mathematics*

*Business Mathematics* introduces secondary students to beginning accounting procedures and gives valuable insight into the world of investments. At the same time, the course reviews and expands students' understanding of basic mathematical principles, concepts, and skills. Students use arithmetic, algebra, and geometry as tools to make better financial decisions and to gain an understanding of the workings of business.

The excellent balance of skills practice and problem solving meets the needs of the varying abilities of the students. Students increase their understanding of good investment practices and the stock market. The daily Basic Mathematics Practice Exercises review the fundamentals of mathematics while challenging the students with interesting word problems and concepts that may be new to them. These exercises require students to apply and connect various types of mathematical knowledge. Bible principles regarding finance are set forth throughout this textbook.

## Keyboarding Grades 10–12

*Keyboarding and Document Processing* is written to be clear and concise without being software or hardware specific. This keyboarding course begins with the basics of learning the keyboard—all alphabet and figure keys.

Document formatting skills for business letters with special features and other letter and memo styles, unbound reports, and documents with tables are then covered. The main goal of this text is to teach students a skill they will use for life.

### Special Projects

- Creative writing
- Weeklong office simulation combining many documents learned

### Evaluation

- Written quizzes (15)
- Tests (8)
- Desk arrangement and technique quizzes (40)
- Graded documents (17)
- Timed writings (at least 163)

➤ **RED** indicates first introduction of content.

### Basic Skills

- Work area arrangement
- Hand and finger placement, proper body position, correct keying technique
- Introduction of alphabet keys in 23 lessons
- Introduction of number and symbol keys
- Spacing after punctuation and symbols:
  - Semicolon, period, colon, backslash, question mark, exclamation point, hyphen, dash, dollar sign
- Gross words a minute
- Net words a minute

### Computer Skills

- Line spacing, hard and soft returns, headers and footers
- Page orientation, margins, text alignment
- Character formats: bold, italics, underline
- Centering text on a page, tab stops, indents

### Proofreading Skills

- Proofreader's marks:
  - Insert, close up or delete space, transpose, add space
  - New paragraph, do not delete
  - Capitalize, lowercase, spell out
  - Move right or left, align horizontally or vertically, center
  - Bold, italics, underline, start new line, delete
- Keying and correcting documents
- Applying proofreader's marks to already keyed text

### Number Expression Facts

- Regular numbers, house numbers, numbers that begin a sentence
- Street numbers, sums of money, weights and measurements
- Numbers that follow nouns, numbers used together
- Related and unrelated numbers

### Document Formatting

- Announcements
- Memorandums:
  - Simplified, standard
  - Special features: attachment, enclosure
  - Distribution lists
- Personal business letters: punctuation, block style, enclosure notation
- Envelopes: USPS format, inside address format

  - Unbound report:
    - Page numbers, side headings, paragraph headings
    - Parenthetical citations, long quotations
  - Bound report
- Works cited page, title page, tables
- Columns and rows, title and body, text columns, number columns
- Optional features:
  - Secondary title, column headings, source note
  - Dollar amounts, total line
- Enumerations for letters, memorandums, and reports
- Second page headings for 2–page letters and memorandums

## Document Processing Grades 11–12 (one semester)

*Keyboarding and Document Processing* is also used in this course. Formatting and producing employment and business documents is the focus of this course. Students spend weeks on an office simulation, producing documents for their "supervisor." They also work on their résumé and a cover letter, preparing them to seek employment. The final project is the compilation of a document portfolio which includes many documents that students have worked on in the keyboarding and document processing courses.

### Special Projects

- Preparing employment documents for an open position
- Weeklong office simulation combining many documents learned
- Creative writing

### Evaluation

## Art Grades 7–12

*Watercolor Step-by-Step* introduces the tools of the trade, gives innovative substitutes for art materials, and shows the basic techniques used in creating watercolor paintings. Given this foundation, students copy the author's step-by-step demonstration paintings, create their own compositions, and paint them in watercolor. Art history is incorporated in later lessons as students analyze and copy the style of master watercolorists. Students learn to paint still lifes, landscapes, floral compositions, architecture, and other subjects.
